i3HUDDLE

Flexible meeting room solution

Your time is precious

As professionals spend large amounts of time in meetings, it's important to streamline these meetings as much as possible. A simple plug & play meeting solution allows you to get started immediately and creates an intuitive meeting experience.

Why i3HUDDLE is great for your meetings

For the system administrator

Flexibility

Includes all of the key components required for in-room collaboration, and also supports a wide array of USB cameras and microphones for remote collaboration.

Interoperable

Works flawlessly with diverse number of **operating systems** (Mac OS, PC, tablets) and networks (Microsoft, Cisco, Google)

User Friendly

The simple and intuitive user interface results in a delightful user experience that promotes company-wide **user adoption**.

Why i3HUDDLE is great for your meetings

For your co-workers

Tablet look and feel

Take your natural user experience with your phone or tablet to the workspace. The touchscreen looks and feels like a giant tablet. Familiar gestures such as swiping, pinching and zooming all come naturally.

Windows platform

Enjoy the ease of an integrated Windows computer. Walk into the room, take notes, access your files, surf on the web, share your screen, meet with a remote team, customise your home screen, and plan the next meeting at a glance.

Intuitive user interface

Integrate the video conferencing service that you love. Customise the home screen to have your favourite applications within reach.

Features overview

Home button

Press the home button to return to the home screen at any moment. Enjoy intuitive and easy navigation.

Video conferencing

Use any type of video conferencing software.

Simple notetaking

Open the simple whiteboarding app to take notes and share them immediately without using another device.

Capacitive sense

Enjoy extreme response speed thanks to capacitive sense technology which doesn't rely on pressure.

Instant presenting

Use the mirroring app to share your screen instantly on the display. Up to 4 people can present at same time in the split-screen view.

40 touch points

Work with multiple people on the screen. The multi-touch technology recognizes up to 40 touch points at the same time.

Tablet look and feel

Familiar gestures such as swiping, pinching and zooming all come naturally and intuitively on the touchscreen.

Integrated computer

The all-in-one meeting solution comes completely set up with an integrated computer.
