

# Lifesize® App Overview

## One Solution. Unbelievable Meetings.

Organizations worldwide are looking for ways to enhance employee engagement and business relationships regardless of where teams happen to be. Collaboration among employees, suppliers and customers is essential to move business forward, but connecting a global and mobile workforce can be a complex and costly challenge.

Collaboration drives creativity, productivity and efficiency for any business, so it shouldn't be hard. We've analyzed how users work together to achieve one of the most critical factors in driving adoption and use — simplicity.

With Lifesize, IT pros can enable their organizations to connect and collaborate effectively — all through one provider and one easy-to-use solution. The Lifesize application is streamlined and designed to enhance all of the different ways your team communicates. Get video, web and audio conferencing, chat and the ability to stream and record meetings. The Lifesize cloud-based service is simple, secure and scalable — and built for the devices, platforms and workflows you use every day.

At Lifesize, we understand the power of connecting people to make the workplace great. Our history of video conferencing innovation has evolved to include all the modern ways enterprises meet — video, audio and web. Through a unique integration of plug-and-play HD camera systems and HD phones with easy-to-use cloud-based conferencing software, we deliver a meeting experience like no other.

**Simple, secure and scalable — and built for the devices, platforms and workflows you use every day.**

- Connect via desktop, mobile and browser-based web app
- Integrated, plug-and-play HD camera systems and HD phones for every room
- Interoperable with other collaboration tools, like Skype for Business
- Global reliability with business-class security, performance and resiliency
- Integrated firewall traversal and built-in encryption
- 24x7x365 Extreme support — we're always here to help
- Automatic software updates

## All-in-one collaboration app

### Easy to Use

- Intuitive with a simple, modern UI design
- Requires no training or thinking — just go!

### Exceptional Flexibility

- Consistent user and guest experience in browser and desktop apps
- Versatile meetings through powerful moderator controls and permissions

### A Great Value

- Low total cost of ownership through one comprehensive solution
- No burden on IT to deploy, train and support

# Lifesize App Overview

## A meeting experience like no other

Thousands of businesses around the world are already using Lifesize to achieve better connections between their employees and reap the benefits of great collaboration. Only Lifesize provides the features you need to make your meetings truly connected.

### Integrated search-based directory

Make a call instantly with the centralized, search-based directory — no hold music, no waiting for moderators, no dial strings. It's as easy as making a call can be.

### Web conferencing

We make it simple to share your screen with colleagues during a conference call. Choose to share your full screen or just a single app with the click of a button. For meeting moderators, easy-to-access controls let you mute audio and end calls for individuals or all participants. And any user in a call can invite others to join.

### Unlimited guest invitations

Send a meeting or calendar invite to anyone inside or outside of your organization and connect over video right from your browser with the Lifesize web app.

### Live Stream and Record and Share

Live stream to up to 10,000 viewers and watch from a variety of browsers and mobile devices. Record and share your videos via a personal video library.

### Unlimited audio-only calls

Every Lifesize user is issued both a video number for VOIP calls from your computer using the Lifesize app and an audio bridge number for local dial-in from standard phones with numbers in more than 60 countries — perfect for connecting up to 50-way audio calls when you can't be on video.

### Calendar integrations

Sync Lifesize® Icon™ conference room systems with your Microsoft® Office 365®, Google Apps for Work or Microsoft® Exchange Server 2013 or 2016 calendar for on-screen prompts to start your meeting on time as soon as you walk into the room.

### Web-based management designed with IT in mind

Access the dashboard to track usage by number of calls, minutes, users and average call time. Set up and maintain the directory, purge unused meeting rooms and customize advanced features all from your browser.

Get a feel for the Lifesize experience from your desktop to the meeting room with our [Guided Demo](#) tour.
