

Jabra GN

Video conferencing. Reinvented.

SKY
GROUP

Jabra GN

The Jabra PanaCast Series

Fully immersive meetings, for everyone.

180-degree view

Get the complete picture. Unlike traditional video conferencing cameras, all Jabra PanaCast Solutions give you a full 180° field of view.

Dual Stream

Draw people into your presentations with Jabra's unique Picture-in-Picture mode. Share a close-up as your main picture while you present from a smaller window.

Intelligent Zoom

Everyone is included in the conversation automatically. Intelligent Zoom zooms in whenever people are present, making the most of the space on screen.

Jabra PanaCast 50

The intelligent video bar that gives **everyone** an equal meeting experience.

Astounding Sound

From the world leaders in professional audio

180°

Picture Perfect

180° field of view in Panoramic-4K

On-device AI

Powers a range of intelligent features

Jabra PanaCast 50 Features

- Three 13-megapixel cameras, mounted in a high-precision multi-camera array, cover every part of the room so no-one falls off the end of the screen.
- Jabra's patented real-time video stitching technology intelligently decides exactly the right point to live-stitch the three camera feeds together, creating a seamless 180° view in high-definition Panoramic-4K.
- Beamforming 8-mic technology maximises the signal-to-noise ratio so that everyone sounds super sharp.
- Jabra's incredible whiteboard streaming technology lets you live stream and enhance your whiteboard content so virtual and physical attendees can see it equally.
- PanaCast 50 couldn't be easier to install, with three different options to suit every room setup: Wall Mount, Table Stand and Screen Mount.
